PROFILE

Enthusiastic and detail-oriented data science graduate with a solid foundation in programming, statistics, and machine learning.. A quick learner with excellent communication skills, eager to collaborate with multidisciplinary teams to tackle real-world challenges in data analysis and machine learning.

PROJECTS

- **Email Spam Detector :**

In this project work as Data Scientist develop a machine learning model to predict the mail is Spam or Not Spam and evaluate performance matrices.

- **IMDB Movie Review Analysis:**

In this project work as Data Scientist to develop a machine learning model review anlysis and preprocess the model.

- **Heart Desease Prediction:**

This Project related to medical field and work as Data Scientist to develop a model and preprocess the data and evaluate performance matrices.

- **Python Data Analysis:**

In this project work as Data Analyst collect the data from Nike website using Web Scrapy and Analysis the collected data and extract the meaningful insights.
